SELECTED BUSINESS IMPACT

CRM Revenue Enablement Contributed to over \$16.4M in measurable business revenue through CRM-driven automation, cross-region inventory enablement, and dormant client reactivation workflows.
Sales Process Optimization Improved deal win rates from 68% to 81.6% by implementing structured CRM workflows, automated tracking, and regional sales visibility systems.
Operational Efficiency Automated reporting, KYC validation, inventory coordination, and internal workflows saving an estimated 6,000+ operational hours annually across 60+ users.
Cross-Region Inventory Integration Enabled centralized inventory visibility and CRM integrations contributing to 520% growth in India-to-Dubai cross-region sales operations.

PROFESSIONAL EXPERIENCE

Senior CRM Developer & Data Architect | KGK InfoTech LLP

Jan 2025 – Present · Mumbai, India

- ▶ Leading enterprise-scale **Zoho CRM implementation** for a global diamond trading organization by designing custom modules, layouts, related lists, and automation workflows aligned with international business operations.
- ▶ Developed advanced **Zoho CRM widgets using JavaScript, HTML, and APIs** to improve operational visibility, simplify internal workflows, and enhance user interaction across sales and operations teams.
- ▶ Architected and optimized **Zoho Analytics dashboards** with complex data models, custom SQL queries, KPI reports, forecasting dashboards, and cross-functional executive reporting systems.
- ▶ Built and maintained integrations between **Zoho CRM, PostgreSQL databases, internal Oracle-based systems (NIVID), and Kafka event pipelines** enabling real-time synchronization of inventory, customer, and sales data.
- ▶ Implemented multiple **REST API integrations** for automation of order processing, bid management, customer onboarding, and vendor communication workflows.
- ▶ Designed scalable **Zoho Creator and custom workflow solutions** supporting operational tracking, leave management, kiosk systems, equipment rentals, and approval processes.
- ▶ Built secure role hierarchies, field-level permissions, and validation frameworks alongside automated scheduled functions and bulk data processing — strengthening data governance and reducing manual intervention.

Software Engineer & Zoho Developer | Vedika Web Solutions

Oct 2020 – Dec 2024 · Pune, India

- ▶ Delivered **100+ custom Deluge scripts** across Zoho CRM, Creator, Desk, and Books to automate workflows and reduce manual processing.
- ▶ Architected a full **CRM migration from HubSpot to Zoho CRM**: audited legacy schemas, mapped field relationships, transformed records, rebuilt automation, and validated data integrity with zero data loss.
- ▶ Architected a **Shopify–Zoho integration suite** connecting Shopify with Zoho CRM and Zoho Books through the **Shopify REST API and webhook integrations** — enabling real-time, bi-directional synchronization of orders, customers, products, and inventory.
- ▶ Implemented **automated order processing and order-to-cash automation**: Shopify order and customer synchronization into Zoho CRM, automated invoice generation in Zoho Books, and Stripe payment reconciliation — with shipment-status automation pushed back to Shopify.
- ▶ Built **Shopify webhook listeners** for order, payment, and fulfillment events driving **customer lifecycle automation**, product and inventory synchronization, and real-time stock updates — eliminating manual data entry and reducing fulfillment errors.
- ▶ Developed a **REST API integration framework** for an insurance agency CRM: automated policy imports, claim-status webhooks, and SLA-based notification routing.
- ▶ Drove a **30% increase in client lead generation** through automation-powered campaign workflows and advanced reporting that improved sales-pipeline visibility.

Business Associate | The Pioneer Organization

Mar 2020 – May 2020 · Mumbai, India

- ▶ Supported business development activities and client relationship management for national brands.

Customer Service Representative | Teleperformance

Aug 2019 – Dec 2019 · Goregaon, India

- ▶ Provided customer support and technical assistance in an enterprise client environment.

KEY PROJECTS & TECHNICAL IMPLEMENTATIONS

KGK Diamonds — Zoho CRM	Full CRM architecture for a global diamond trading company: custom modules, Blueprint-driven workflows, REST API integration with internal databases, and multi-tier executive dashboards in Zoho Analytics.
Interpretation Equipment Rental (Zoho Creator)	Custom Creator app managing 1,500+ equipment pieces across 2 warehouses — relational data model for inventory, booking workflow engine, in/out logging, and automated availability validation.
HubSpot → Zoho CRM Migration	End-to-end data migration: schema audit, field mapping, data transformation scripts, workflow recreation, and post-migration data integrity validation. Zero data loss, minimal downtime.
Shopify ↔ Zoho Integration Suite (Shopify · Zoho CRM · Zoho Books · Stripe)	End-to-end Shopify–Zoho CRM and Shopify–Zoho Books integration built on the Shopify REST API and webhook integration for real-time data synchronization. Automated order, customer, product, and inventory synchronization; order-to-cash automation with automated invoice generation, Stripe payment reconciliation, and shipment-status automation pushed back to Shopify. Workflow automation and customer lifecycle automation eliminated manual order processing and reduced fulfillment errors.
Real Estate Analytics Dashboard	Zoho Analytics implementation: designed data schema, cross-module joins, and real-time dashboards tracking lead conversion, pipeline stage velocity, and agent KPIs for a real estate agency.
Insurance Agency API Integration	Integrated Zoho CRM with external insurance portals via REST API: automated policy imports, claim status webhooks, and SLA-driven notification workflows.
